Margaret Boyle	Historia de la medicina	Literatura	"Why Should a Woman Study Medicine?": Women and Health in Early Modern Spain
Arturo Hernandez	Psicología cognitiva y psicolingüística	Psicología	Neurocognitive studies of bilingualism across the lifespan
Peter Hitchcock	Neurobiología y Neurofisiología	Ciencias Biológicas	Experimental stem cell-based therapies to cure blindness
Robert Geoffrey Jensen	Historia de Europa Occidental	Historia	Spanish Ways of War and Occupation: Conquest, Counterinsurgency, and the Guerrilla Myth in Spain and Morocco, 1912-1956
Abby Kavner	Geofísica de la Tierra Sólida	Geología	Earth Electrochemistry
Alison Chivers		Medicina	Consequences of Tumor Suppressor p73-Deficiency on Cell Development and Pathogenesis
Amad Amedy	Neurociencia	Medicina	Schizophrenia: The Effect of Stress and Genes on Psychosis
Annamarie Bair		Informática	Emergent Properties in Gene Networks and Complex Systems
Andrew Chen	Neurociencia	Medicina	Investigating Patient Frailty to Improve Anesthetic Delivery
Haley Schroer		Historia	Dressing the Law: Appearance, Identity, and Sumptuary Legislation in the Spanish Empire
Ahmed Deidan de la Torre		Historia	Negotiation and Espionage: Spanish Agents and the Struggle for Empire, 1808-1824
Matthew Ehrlich		Historia	Volunteers for Empire: Peninsular Spaniards in Colonial Cuba, 1868-1898
Brittany Erwin		Historia	Necessary Ceremony: Ritual and Imperial Control in the Eighteenth-Century Spanish World
Miranda Hale		Traducción e Interpretación	Trauma-Informed and Culturally Competent Interpreting in Social Services
Akshay Jaggi		Medicina	Follow Your Heart: Cardiovascular-Based Risk Assessment of Cognitive Development
Nicollette Laroco		Ingeniería	A novel approach to upcycle steel-making residuals for biogas upgrade to renewable natural gas

Sasha Lieblein		Arqueología	Plagued Ceramics: Detecting the Justinian Plague in Spain through Pottery Analysis
Miranda McClellan		Informática	Automated scaling of 5G network resources before predicted usage surges
Oren Okhovat		Historia	Portuguese Jews and the Spanish Empire: Constructed Communities and Cultural Crossroads, 1580-1700
James Pelletier		Física	Biophysical modeling of resource allocation in cells to inform agricultural efficiency
Lisandra Novo		Derecho	Truth Delayed: Spain considers a Truth Commission decades after the original crimes
Taylor Stauffer		Medicina	Analysis of epithelial mucosal environment in pediatric versus adult-onset Crohn's disease
Neerja Thakkar		Informática	Hybrid Deep Learning Approaches for Appearance Capture
Hannah Maryan Thomson		Historia	Altered Landscapes, Enduring Histories: Charting Founded Frontier Towns of Alfonso VI
Alex Daniel Velez		Antropología	Evolutionary Study of the Temporal Bone in the Atapuerca Human Fossils
Joanna Zhou Zhang		Estudios Medioambientales	Seed-Dispersal Dynamics of Oaks, Walnuts, and Almonds in a Mediterranean Agroecosystem
Anita Gill		Creación literaria	The Fraught Legacy: Unearthing the Spanish Genius for an English Novel
Aisvarya Panakam		Medicina	Development of Immunogens against HIV that Elicit Broadly Neutralizing Immune Response
Scott Folkman	Química Aplicada	Química	Electrocatalytic Water Oxidation Using Non-Noble Metal Catalysts in a Commercial Electrolyzer for Production of H2 as a Renewable Carbon Neutral Fuel
Kevin Robert Roche	Ingeniería Ambiental	Ingeniería	Predicting Turbulent Nutrient Transport in Streams with Coarse Sediment Beds
Arturo Lopez-Levy	Políticas Internacionales	Relaciones Internacionales	The 2016 EU-Cuba Political Dialogue and Cooperation Agreement: Implications for U.S.-Cuba Relations

Carl Boehlert	Ciencia de materiales	Ingeniería	Processing-microstructure-property relationships of powder metallurgy processed titanium alloys
Elizabeth Carter	Economía Política	Ciencias Políticas	The Politics of Quality: The Spanish Wine Case
Jill Schwedler		Ciencias Políticas	Collaborative Research on Citizen Struggles over Public Space
Maia Donnelly	Creación Literaria	Literatura	Fostering Connections through Poetry
Anwarul Haque	Ingeniería Mecánica	Ingeniería	Teaching Solid Mechanics and Presenting Research in Composite Materials
Kristof Kipp		Medicina	Strengthening International Relationships Through Sports Biomechanics
Claudia Gentry-Weeks	Ingeniería genética	Ciencias Biológicas	Advancing molecular genetics in teaching and research at the Universidad de Murcia, Spain
Nancy Sayre		Administración y Dirección de Empresas	Cultural Competency in Business Leadership
Matthew Blake Hargrove	Gestión y comportamiento organizacional	Administración y Dirección de Empresas	Positive Possibilities for Businesses through Teaching and Research
